

JONAH

for ents

ELEVATED EVENTS

UNIQUE EVENTS & VENUES: I believe we need to have more high-calibre events. Creativity is key. For example, I think that the **Science Gallery** should be utilized more as a venue, we should introduce more **entertainment workshops** to encourage event creativity in our student body, and we should have a Battle of the Bands style **comedy festival**.

COLLABORATION: Collaborating with societies makes for strong events and helps promote small societies as well. As Ents Officer I would like to run more **events that get multiple small societies involved**. We should also collaborate with local theatres, comedy gigs, and sporting events so that we can get **discounted tickets that can be sold through the SU shop**.

ENGAGEMENT

EMPHASIZE MULTIMEDIA ADVERTISING: We should allocate a **video budget** for bigger events, renew our focus on getting **photos up faster**, and host **creative competitions** to engage the student body.

ON THE GROUND PRESENCE: Today when everything is a Facebook event, we need to expand from Trinity Ents online presence and make it more **physically visible** to the student body around college. We should use **posters, fliers, and even a representative system** to build excitement for upcoming events.

ENTS FOR ALL

INCLUSIVITY: Inclusivity is a top priority for Trinity Ents. Ensuring that the venues and locations used by Trinity Ents cater for the needs of our student populace is something that Trinity Ents should always strive for. I would like to add to every event description a section for **details about the facilities** in each venue we use. As Ents Officer, I promise to do my best to ensure that **everyone is catered to at any event** hosted by Trinity Ents.

OFF-CAMPUS INVOLVEMENT: It is important that students from all courses are involved with Trinity Ents. I want to start by creating a **stronger connection with health science courses**. I will collaborate with class reps and the health science societies to organise events which cater for these students who are not based on central college grounds.

RELIABILITY

I pledge to work hard and make sure Trinity Ents maintains a strong drive throughout the year. **I will work to have at least one big event each month that you can count on**. I will make sure that event information is communicated to the student body in a clear and timely manner.

Remember, thinking outside the box is what this job needs. **Vote Jonah Craig for Ents**.
